

experiment of information diffusion and collection with 3 cycles

cycle 1

ended with:
~1000 friends

found:

surprise,
wonder

typical feedback:

"What is this?"
or
"I have never
imagined such a
thing. What is the
use of it?"

started with:
~850 friends

cycle 2

ended with:
~1200 friends

found:

interest,
support

typical feedback:

"nice. This is a very
interesting study."

started with:
~1000 friends

cycle 3

ended with:
~1450 friends

found:

adherence,
partnership

typical feedback:

"We would like to
meet, can we visit
you this month?"
or
"What do you think
about making a
workshop?"

started with:
~1200 friends

strangely enough, no negative feedbacks!

Results *of the experiment*

Maturing of the project itself

Multimedia production

Development of open source computer gadgets

Written academic articles

Knowledge fostered

Symbolic storage of > US\$ 1.000,00

Usual maintenance

(house move, labMacambira.sf.net,
disciplines and bureaucracy, etc.)

Partnerships

(Academy, State,
ONGs, Specialists)
